

CabPal

An app which allows anyone to book a cab, hassle-free, anytime and anywhere.

Can be used:

- by less able individuals (such as deaf, mute), busy individuals and etc.
- as an after-party app, when taxi company can't understand your mumbling,
- in situations when you have poor network reception (like in the train),
- and many more.

Advantages:

- it is better than competitor apps, because no registration is needed for taxi companies,
- pay for taxi by PayPal or cash,
- the app it is free of charge and open source

Behind the scenes

Thank You!
